

## Survey Design: 25 Minutes

### Step One

Design a survey, based on your earlier research questions on the big sheet of paper, of two questions using survey monkey and the directions found on our class's website.

### Step Two

After designing, switch and take somebody's survey.

### Step Three

After you take your partner's survey, talk to them about these questions:

- a. What was the best question in the survey and why?
- b. Where did you get confused and why?
- c. What suggestions do you have for the survey creator?

### Step Four

Be ready to talk about your experience
